New York University (GPA: 3.4 / 4.00)

New York, NY

Bachelor of Arts in Mathematics with Minor in Computer Science

December 2024

- **Courses:** Software Engineering, Probability and Statistics, Mathematical Analysis, Linear Algebra
- **Awards:** Inside ADIA Competition (2nd), Wharton Innovation (3rd), Selected by MBRSC for MIT research.
- **Software Skills:** Python, Java, C, DevOps, Full-Stack Developer, Backend/Frontend Development

Research Experience

Massachusetts Institute of Technology (MIT) Zero Robotics - Research Intern

July 2024 – August 2024

- Developed a graph theory algorithm (MatLab and Python) for a robot to clear debris on the ISS using the most optimal path that reduced simulated traversal time ~30% vs. baseline under energy limits
- Utilized software environments (IDE and APK) used on robot's operating system to develop newer versions for future projects at Mohammed Bin Rashed Space Center (MBRSC)

New York University Abu Dhabi (NYUAD) Quantum Computation - Research Assistant

June 2024 – October 2024

- Researched possible quantum computer models and their values using multiple computational systems
- Automated 50–100 parameter sweeps (Matlab) for a 3-qubit XXZ model, cutting compute time ~40%

Work Experience

Abu Dhabi Investment Authority (ADIA) - Private Equity Department Intern

July 2023-August 2023

- Built and defended 12+ APAC case studies; standardized a driver template that cut screening time ~25% and tightened comparability with Bullish, Bearish, and Base assumptions
- Completed rigorous CFA level training and coaching about 3-statement financial models and due diligence

Abu Dhabi Investment Council (ADIC) - Active Investments and Equity Department Intern

May 2023-June 2023

- Implemented a multi-factor attribution (Python) explaining ~70% return variance across 20+ managers
- Refined portfolio tracking software to predict future returns of managers by identifying the strategies used

Leadership

Pioneer Capital Investments (Group Lead): Led 5 analysts on Intel/tech coverage; shifted portfolio weight ~2–3%

UAEsocietyNYC (President & Co-Founder): Managed relations with UAE Consulate and UN Mission; grew following to 250+ and coordinated state-wide multi-org events

Companies Founded

Polygon Technical Infrastructures CEO & Co-Founder (<https://polygonti.com/>)

August 2025- present

- Standardized penetration testing and incident response playbooks that reduce risk for effective monitoring
- Led end-to-end delivery (Full-Stack Development) from discovery to deployment (DevOps) and support using reusable authentication and CI/CD

RECTify Brokers (Co-Founder) (<https://rectifygo.com/>)

October 2025- present

- Built a platform (Full-Stack Development) that takes companies from emissions baseline to purchasing renewable energy certificates and carbon credits with audit-ready reports.
- Set up brokerage operations-onboarding (Backend), business checks, issuance and transfer workflows—to shorten deal cycles and raise credit quality
