Abu Dhabi, UAE | +971 50 561 2301 | raa9917@nyu.edu | [linkedin.com/in/rashed-alneyadi](https://www.linkedin.com/in/rashed-alneyadi)

PROFILE

UAE National builder and co-founder with a track record of founding and operating two companies by age 22 — a cybersecurity/software firm and a climate-tech brokerage platform. Mathematics graduate (NYU Abu Dhabi, Dec 2024) combining full-stack engineering, DevOps, and go-to-market execution. Seeking founder associate, venture, or early-stage technology roles.

EXPERIENCE

CEO & Co-Founder — Polygon Technical Infrastructures 2021 – Present | Abu Dhabi, UAE

- Founded a cybersecurity and bespoke software development company from scratch while at university; bootstrapped to paying SME clients across the UAE.
- Architected and shipped multiple full-stack products end-to-end using React / TypeScript, Python, MongoDB, and Node.js with automated CI/CD pipelines (GitHub Actions, Docker).
- Led penetration testing and incident response engagements — delivered formal vulnerability reports and remediation roadmaps to enterprise clients.
- Managed client relationships, proposal writing, and project delivery; grew team from solo to 3 collaborators.

Co-Founder — RECTify Brokers 2023 – Present | Abu Dhabi, UAE

- Co-founded UAE's first bespoke REC / carbon-credit brokerage platform targeting corporates pursuing Net Zero 2050 alignment.
- Designed full product stack: emissions baselining tool, REC procurement marketplace, audit-ready ESG reporting module, and brokerage CRM workflows.
- Integrated live carbon market data APIs; built automated matching engine pairing buyers with verified certificate issuers.
- Engaged early enterprise customers; positioned company within Abu Dhabi's sustainability regulatory framework.

Active Investments & Equity Intern — Abu Dhabi Investment Council (ADIC) Jun – Aug 2023 | Abu Dhabi, UAE

- Developed Python analytics platform for multi-manager portfolio attribution — explained ~70% of return variance across 20+ external managers.
- Built and deployed automated performance-reporting pipeline using pandas and matplotlib; saved ~5 hours/week of manual analyst work.

Private Equity Intern — Abu Dhabi Investment Authority (ADIA) Jan – May 2023 | Abu Dhabi, UAE

- Conducted market analysis and financial modelling for 12+ APAC investment cases; gained exposure to deal sourcing and IC processes at one of the world's largest SWFs.

Research Intern — MIT Zero Robotics (via MBRSC) — Mohammed Bin Rashid Space Centre Jun – Aug 2022 | Dubai, UAE / MIT, USA

- Selected for competitive MBRSC programme; shipped graph-theory path-optimisation code that ran aboard the International Space Station.
- Reduced robot traversal time ~30% — algorithm competed in ISS Zero Robotics Final Tournament.

Quantum Computation Research Assistant — NYU Abu Dhabi Sep – Dec 2022 | Abu Dhabi, UAE

- Automated large-scale MATLAB simulation pipeline; reduced compute time ~40% through vectorised parameter sweeps.

EDUCATION

BA Mathematics — Minor Computer Science — NYU Abu Dhabi Aug 2021 – Dec 2024 | Abu Dhabi, UAE

- GPA: 3.4 / 4.0
- Relevant coursework: Probability & Statistics, Real Analysis, Algorithms, Machine Learning, Econometrics, Linear Algebra, Discrete Math
- Awards: Inside ADIA Competition — 2nd Place (2023) | Wharton Innovation Competition — 3rd Place (2022)

SKILLS & TOOLS

Full-Stack: React / TypeScript, Node.js, Python (FastAPI, Flask), REST APIs, MongoDB, PostgreSQL basics

DevOps & Infra: CI/CD (GitHub Actions), Docker, Linux sysadmin, cloud deployment basics

Security: Penetration testing (OWASP), incident response, vulnerability assessment, network security

Data / Analytics: Python (pandas, NumPy, matplotlib), MATLAB, Excel, financial modelling

Languages: Python, TypeScript / JavaScript, Java, C, MATLAB

Human Languages: Arabic (native), English (fluent)
